

GMG ProofPaper semimatte Light

Compared with GMG ProofMedia premium semiMatte 250 is lower weight proofing media.

GMG ProofPaper semimatte Light is developed to simulate coated and semi-gloss finished products for all the printing industry segments, including packaging printing, commercial printing, publishing printing, etc.

Besides, the light weight provides the advantages such as foldability.

GMG ProofPaper semimatte Light provides a large color gamut, high resolution and fast drying for easy handling. The product has high production consistency.

Technical data overview

Surface texture	semi-matte
Weight	190 g/m ²
Thickness	185 µm
Opacity	> 92%
Substrate color (M1)¹	97L* / -0.7a* / -1.4b*
OBA content classification²	Free of OBA
Can be used as white backing?³	Yes

¹The substrate color was measured under M1 measurement condition per *ISO 13655*

²Classification and description of the content of optical brightening agents (OBAs) are per *ISO 15397*

³The white backing test was per *ISO 13655*

To ensure the best quality of the media and proof quality, the product should be stored in its original packaging under the condition of 20°C to 25°C (68°F to 77°F) and 50% to 55% relative humidity. Avoid direct solar radiation and dampness.
