Epson SC-P5000 V	GMG ProofMedia premium semiMatte 250	FOGRA39	GMG ColorProof 5.9	<a href="#">Nr. 31346-4</a>
Epson SC-P7000 V	GMG ProofMedia premium semiMatte 250	FOGRA39	GMG ColorProof 5.9	<a href="#">Nr. 31008-4</a>
Epson SC-P9000 V	GMG ProofMedia premium semiMatte 250	FOGRA39	GMG ColorProof 5.9	<a href="#">Nr. 31346-8</a>
Epson SC-P5000 LLK	GMG ProofMedia premium semiMatte 250	FOGRA39	GMG ColorProof 5.9	<a href="#">Nr. 31346-3</a>
Epson SC-P7000 LLK	GMG ProofMedia premium semiMatte 250	FOGRA39	GMG ColorProof 5.9	<a href="#">Nr. 31008-3</a>
Epson SC-P9000 LLK	GMG ProofMedia premium semiMatte 250	FOGRA39	GMG ColorProof 5.9	<a href="#">Nr. 31346-7</a>

## Note:

The compatibility between GMG ColorProof software versions is guaranteed, therefore the certifications are upwards compatible, too. The compatibility between ColorProof 4 and ColorProof 5 has been FOGRA-certified (see certificate 22470).

1. The system consistency verification of the printer types Canon imagePROGRAF iPF6350 and Canon imagePROGRAF iPF8300 guarantees that all types of a printer series have the same characteristics. The FOGRAcertification of the Canon imagePROGRAF iPF6350 is therefore valid also for the Canon imagePROGRAF iPF8300.
2. The system consistency verification of the printer types Canon imagePROGRAF iPF6300S and Canon imagePROGRAF iPF8300S guarantees that all types of a printer series have the same characteristics. The FOGRAcertification of the Canon imagePROGRAF iPF6300S is therefore valid also for the Canon imagePROGRAF iPF8300S.
3. The system consistency verification of the printer types Epson Stylus Pro 4900 and Epson Stylus Pro 7900 guarantees that all types of a printer series have the same characteristics. The FOGRA certification of the Canon Epson Stylus Pro 4900 is therefore valid also for the Epson Stylus Pro 7900.
4. The system consistency verification of the printer types Epson Stylus Pro 4800/7800/9800 and Epson Stylus Pro 4880/7880/9880 guarantees that all types of a printer series have the same characteristics. The FOGRAcertification of the Epson Stylus Pro 4800/7800/9800 is therefore valid also for the Epson Stylus Pro 4880/7880/9880.
5. The system consistency verification of the printer types Epson Stylus Pro 7890 and Epson Stylus Pro 9890 guarantees that all types of a printer series have the same characteristics. The FOGRA certification of the Epson Stylus Pro 7890 is therefore valid also for the Epson Stylus Pro 9890.
